

### ADVANTAGES

- Able to be installed in any manufacturer's loose-fill filters
- ISO 10121-1:2014 tested media
- UL 900 classified for flammability
- Targets oxidizable acidic gases responsible for corrosion
- Ideal for formaldehyde and ethylene
- Co-formed media ensures complete MnO4 impregnation of the media

### Application

Corrosion control of electronic equipment in heavy process industries such as oil and gas, pulp and paper, mining and metal refining and wastewater treatment. Any application for hydrogen sulfide and other oxidizable gases. Excellent for aldehydes found in In-vitro fertilization (IVF) lab.

### Media

Impregnated Activated Alumina

### Max Temperature (°C)

60

### Min Temperature (°C)

10

### Relative Humidity max

40%-90%

### Installation Options

All loose-fill molecular air filters.

### Comment

UL approved
